AGES 10+

JIM GIAR

Take your drawing and cartooning skills to the next level with Jim Giar. Jim attended CCAD, studying illustration and photography. He adopted advice from his illustration instructor as a lifelong mantra: "every illustration should tell a story." Recently he has contributed to several anthologies, including the Harvey Award nominated Once Upon A Time Machine published by Locust Moon & Dark Horse Comics, as well as the New York Times best seller FUBAR: Empire of the Rising Dead. He shares his love of comics with kids, looking to motivate the young storytellers of the future to continue telling stories through the use of sequential images, a talent, Jim feels, exists in all children. In this course Jim will teach basic drawing skills, showing how to give figures form and incorporating storytelling while helping you find your own personal style. Open to any skill level, this class will leave students with a cartooning portfolio to be proud of and tools to apply to any discipline of art.

Come unlock the mystery to a fun and portable medium.
