Recently he has contributed to several anthologies, including the Harvey Award nominated Once Upon A Time Machine published by Locust Moon & Dark Horse Comics, as well as the New York Times best seller FUBAR: Empire of the Rising Dead. He shares his love of comics with kids, looking to motivate the young storytellers of the future to continue telling stories through the use of sequential images, a talent, Jim feels, exists in all children. In this course Jim will teach basic drawing skills, showing how to give figures form and incorporating storytelling while helping you find your own personal style. Open to any skill level, this class will leave students with a cartooning portfolio to be proud of and tools to apply to any discipline of art.
